For customers based in the UK

Guidance on how to return your parcel.

If you decide to return your parcel by postal service the Post Office offer several services.

All boots can be sent by Royal Mail first or second class, Medium Size .

Without insurance your parcel is covered partially by the Royal Mail.
Additional insurance is optional at a premium.

Most standard service parcels posted before 15:00 arrive the following working day.

For parcels over 2 kilo your Post Office may try to advise you to send it by Parcel Force.
This is a more expensive service with no additional benefit.

The post office also offer a Special Delivery Next Day service.
This is an expensive option and mostly it does not arrive any earlier than a standard parcel

If Equitector Ltd had agreed to refund the cost of postage, this is restricted to the cost of the Standard Parcel Service.

NEW !

An alternative cheap parcel service that we can recommend for in the UK is;

<http://www.myhermes1.co.uk>

Just register and book your parcel to be collected or drop it off at one of their drop off points.
It normally will take 2 -3 days to arrive.
